Welcome to **ABODE** CONSTRUCTIONS

This isn't simply about building a new house. It's about creating a home that feels right for the next stage of your life.

Build The Home You've Always Wanted, Without Leaving The Location You Already Love

There's a reason so many Canberra families choose to stay where they are. The schools are familiar. The streets feel like home. Your favourite café already knows your order. The local parks, neighbours and everyday routines have become part of your life. But while the location still feels right, the home itself may no longer suit the way you live.

Perhaps the layout feels closed off. Maybe the rooms are too small, too dark or no longer practical for a growing family. Renovating can sometimes feel like a compromise, especially when older homes come with structural limitations, hidden costs or awkward layouts. A knock down rebuild gives you the opportunity to create a completely new home without giving up the location you already love.

ABOUT ABODE CONSTRUCTIONS

For more than three decades, Abode Constructions has been helping Canberra families create homes designed around the way they live, grow and connect. Having completed more than 80 residential projects, we bring extensive experience and practical expertise to every home we build.

What began as a commitment to quality building has evolved into a reputation for delivering thoughtfully designed homes, personalised service and exceptional craftsmanship throughout Canberra and the surrounding region. We believe building a home should be an exciting and rewarding experience, not a stressful one. That philosophy shapes every project we undertake, whether it's a knock down rebuild, custom home or major renovation.

We take a hands-on approach to every project. From the initial consultation through to final handover, our team works closely with homeowners to ensure every detail reflects their vision, lifestyle and long-term goals.

At Abode Constructions, we're not simply building houses. We're helping families create the next chapter of their lives in homes designed to stand the test of time.

WHY MORE CANBERRA FAMILIES ARE REBUILDING

Stay In The Suburb You Love

One of the biggest reasons homeowners choose a knock down rebuild is simple — they don't want to leave the area they already love. Established Canberra suburbs offer lifestyle, convenience and community that can be difficult to replace.

A Home Designed Around Modern Living

Open-plan living, natural light, energy efficiency, flexible work-from-home spaces and indoor-outdoor connection have become priorities for modern Australian families.

A Smarter Alternative To Renovating

Many older Canberra homes were built for lifestyles that look very different today. Extensive renovations can become expensive and restrictive with hidden structural issues.

Long-Term Value

A beautifully designed new home in an established Canberra suburb can significantly improve long-term property value while delivering a far better everyday living experience.

THE KNOCK DOWN REBUILD ADVANTAGE

Unlike renovations, rebuilding allows you to start with a completely clean slate. Every aspect of your new home can be designed intentionally around the way you live today and how you want to live into the future.

- Retain your ideal location and lifestyle
- Enjoy complete design freedom
- Improve comfort and energy efficiency
- Reduce ongoing maintenance costs
- Increase functionality and liveability
- Maximise block potential
- Create a future-focused family home
- Achieve better long-term value

Modern living begins with a home designed around your upgraded lifestyle

WHY CHOOSE ABODE CONSTRUCTIONS

Choosing the right builder matters just as much as choosing the right design. At Abode Constructions, we combine thoughtful design, local expertise and personalised service to deliver homes that feel both refined and deeply liveable.

Local Canberra Knowledge

We understand ACT regulations, local councils, block conditions and the unique considerations involved in building throughout Canberra.

End-To-End Project Management

From feasibility and approvals through to demolition, construction and final handover, our experienced team manages the entire process.

Thoughtful Custom Design

We don't believe in cookie-cutter homes. Every project is tailored around your lifestyle, family and future plans.

Clear Communication

We value honesty, transparency and realistic expectations throughout every stage of the journey.

Premium Craftsmanship

Our homes are built with care, attention to detail and a strong focus on quality finishes and durability.

EXPERIENCE THAT MAKES A DIFFERENCE

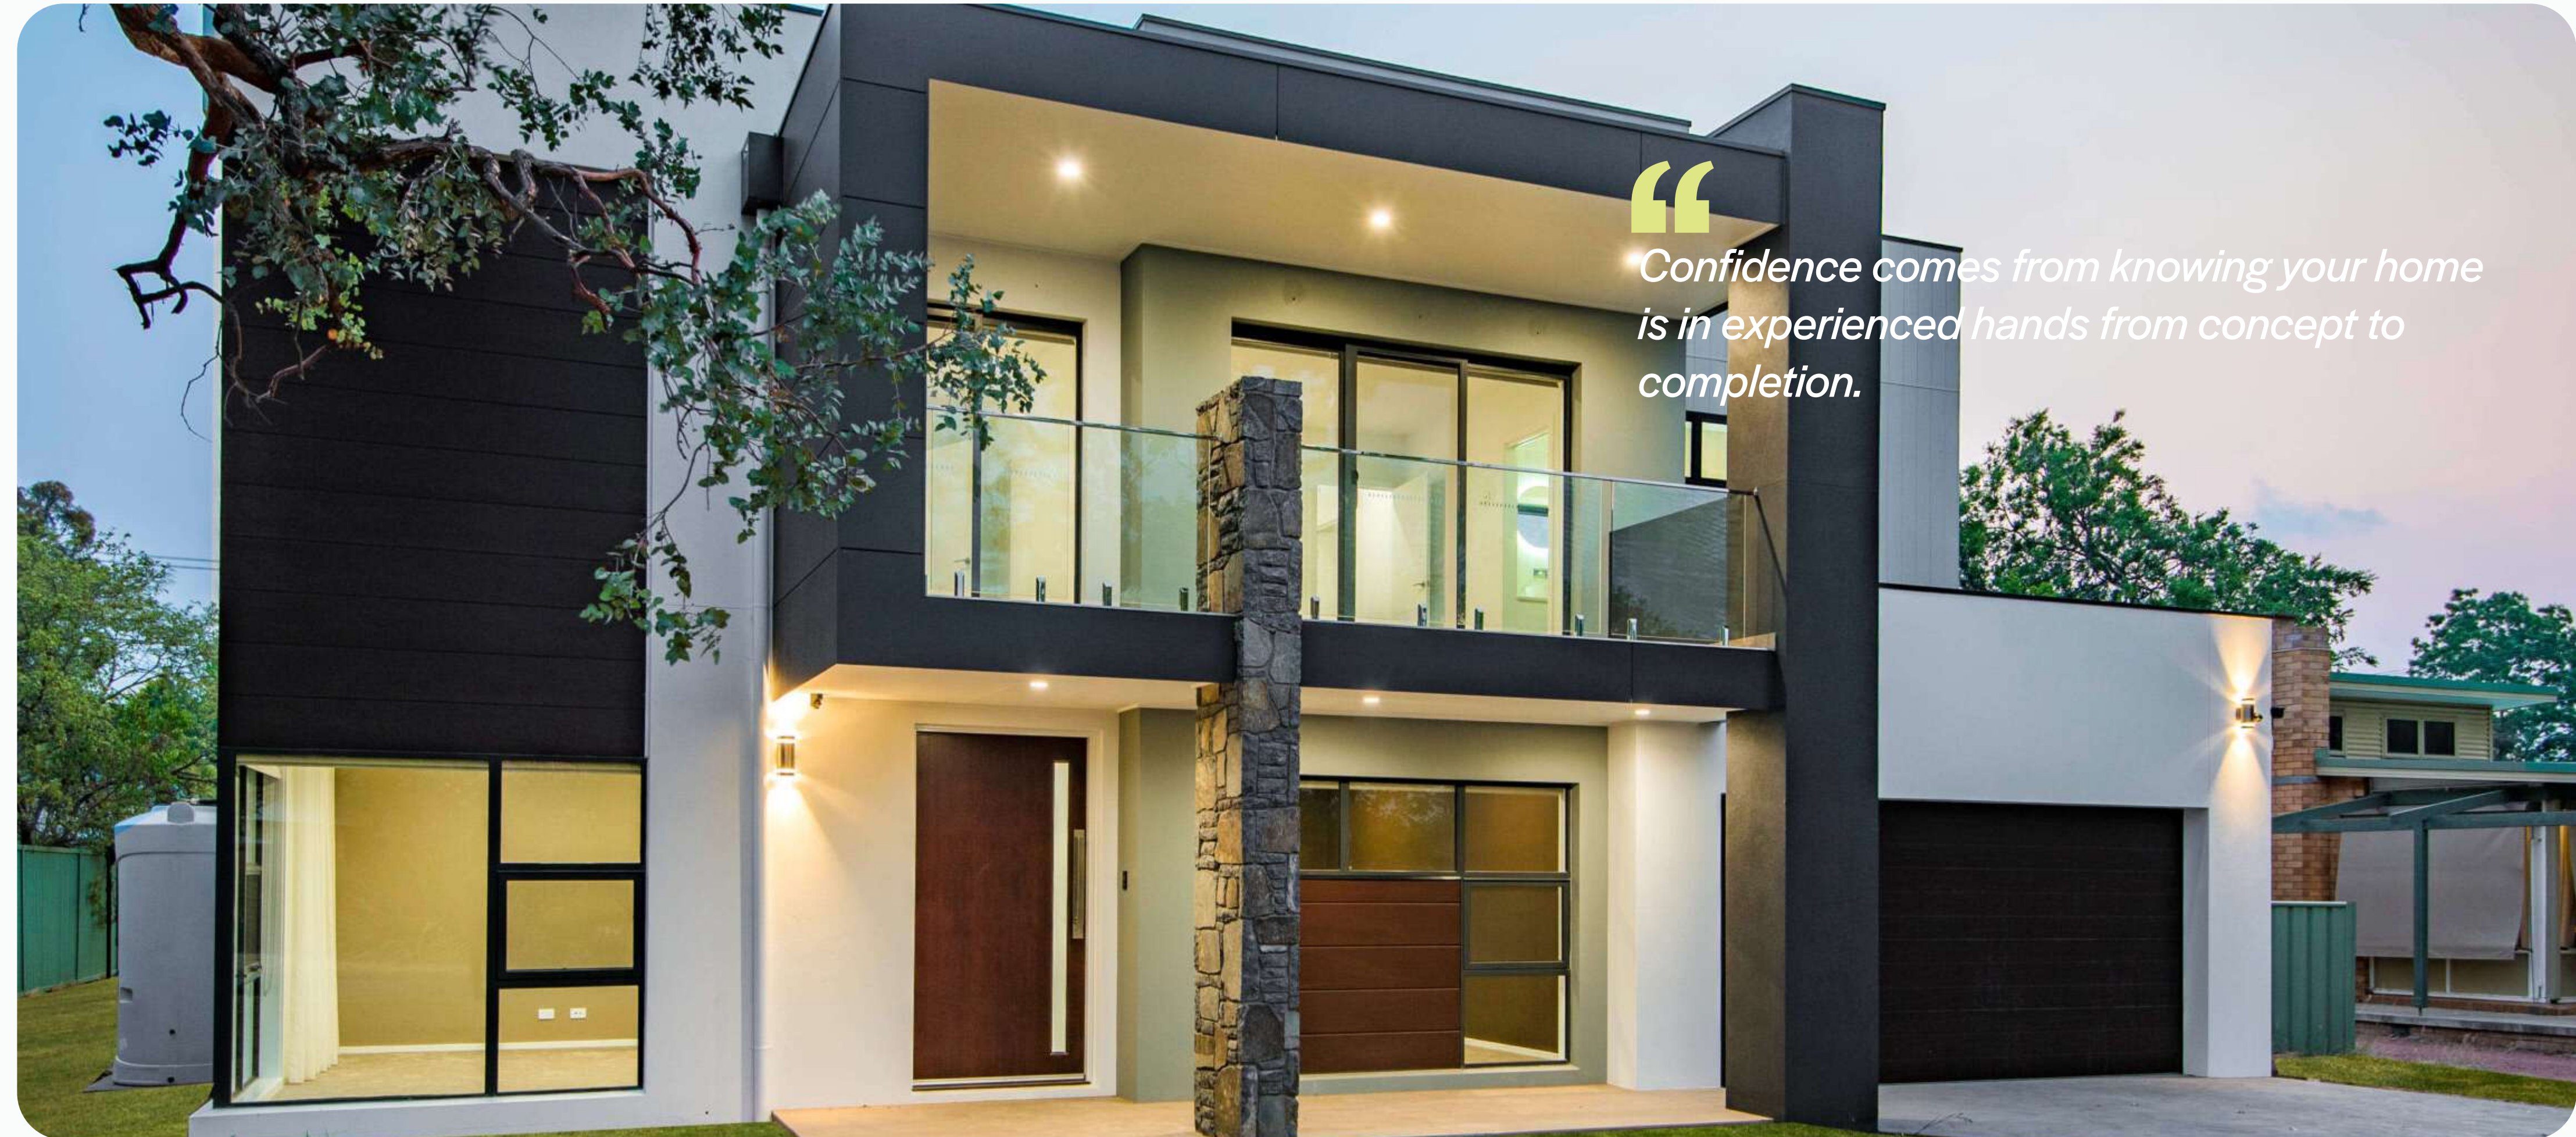

Choosing a builder is one of the most important decisions you'll make during a knock down rebuild. Experience, communication and attention to detail can have a significant impact on the outcome of your project.

With more than 30 years of industry experience, Abode Constructions brings extensive knowledge and proven expertise to every home we build.

Our director remains actively involved throughout the process, helping ensure each project maintains the high standards of quality, compliance and craftsmanship that have become synonymous with the Abode name.

When you build with Abode Constructions, you benefit from:

- **More than 30 years of building experience**
- **Strong knowledge of Canberra regulations and approvals**
- **Personalised service and direct communication**
- **Meticulous project planning and management**
- **Premium materials and trusted local trades**
- **Commitment to quality workmanship**
- **Transparent processes and realistic expectations**

“

Confidence comes from knowing your home is in experienced hands from concept to completion.

OUR DESIGN PHILOSOPHY

We believe great homes should feel timeless, functional and deeply personal.

Every design decision should improve the way you live — from natural light and orientation through to flow, flexibility and connection between spaces.

Whether your style feels contemporary, minimalist, warm or architectural, we collaborate closely with you to create a home that reflects your personality while supporting everyday comfort and practicality.

We carefully consider how families move through spaces, how natural light enters the home and how indoor and outdoor living can connect seamlessly throughout the year.

“Thoughtful homes don’t just look beautiful, they feel better to live in every single day.”

REBUILDING HOMES FOR CANBERRA LIVING

Building in Canberra comes with unique opportunities and considerations. From established inner suburbs to growing family communities, local knowledge makes a significant difference.

Our team understands Canberra's climate, orientation requirements, block conditions and energy-efficiency expectations.

We design homes that feel comfortable throughout Canberra's changing seasons while maximising natural light, airflow and practical family living.

Whether your block is sloping, narrow, compact or unusually shaped, we work carefully to unlock its full potential.

Popular **Canberra** Lifestyle Priorities

- Open-plan living and entertaining
- North-facing natural light
- Energy-efficient design
- Flexible family spaces
- Home offices and study zones
- Indoor-outdoor connection
- Multi-generational living options
- Premium kitchens and bathrooms

THE **KNOCK DOWN REBUILD** JOURNEY

Step 1 **Initial** **Consultation**

We begin with a detailed conversation about your current home, your goals, budget and vision for the future.

Step 2 **Site Assessment** **& Feasibility**

We assess your block, orientation, services, access and council considerations.

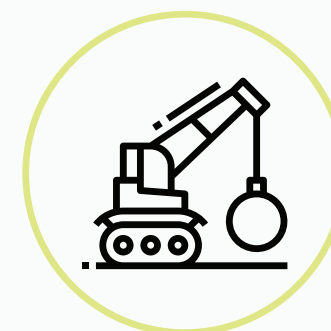

Step 3 **Design** **& Planning**

Our team collaborates with you to create a home tailored to your lifestyle and future needs.

Step 4 **Selections** **& Specifications**

Choose finishes, fixtures, materials and inclusions that reflect your personal style.

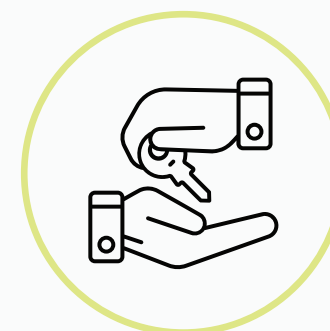

Step 5 **Demolition**

Once approvals are complete, the existing home is carefully removed and the site prepared.

Step 6 **Construction**

Your new home begins to take shape with regular communication and project updates throughout the build.

Step 7 **Completion** **& Handover**

We complete detailed quality checks before handing over the keys to your new home.

“

From knock down to handover, every detail is managed with care and attention.

WHAT TO EXPECT DURING THE PROCESS

We understand that rebuilding your home can feel like a major step. That's why we focus heavily on creating a clear, guided and supportive experience from beginning to end.

Our team provides regular communication, realistic timelines and transparent expectations throughout the journey.

You'll always know what stage the project is at, what happens next and who to contact if you have questions.

We coordinate consultants, trades, suppliers and approvals carefully to help ensure the process remains as smooth and stress-free as possible.

CUSTOM DESIGN & LIFESTYLE FEATURES

Open-Plan Living

Connected living, kitchen and dining spaces designed for modern Australian lifestyles.

Indoor-Outdoor Connection

Large openings, entertaining areas and natural transitions between interior and exterior spaces.

Home Offices & Flexible Spaces

Adaptable rooms designed for work, study, guests or growing families.

Luxury Kitchens

Premium cabinetry, functional layouts and carefully selected finishes.

Energy-Efficient Design

Insulation, glazing and smart orientation to improve comfort and reduce running costs.

Adaptable Living

Homes designed to adapt with your family over time.

PLANNING YOUR INVESTMENT

A knock down rebuild is a significant investment, and careful financial planning can help create a smoother and more rewarding building experience. While every project is unique, understanding the key factors that influence your budget can help you make informed decisions from the outset.

Understanding The Major Cost Components

A knock down rebuild involves several stages, each contributing to the overall project investment. These may include:

- Site assessments and planning
- Design and documentation
- Demolition and site preparation
- Council approvals and permits
- Construction and materials
- Fixtures, fittings and finishes
- Landscaping and external works

Balancing Priorities And Budget

Whether it's a premium kitchen, energy-efficient upgrades, additional living spaces or outdoor entertaining areas, our team works closely with you to align your priorities with your available budget.

Investing In Long-Term Value

Features such as quality materials, energy-efficient design, durable finishes and flexible floorplans may provide ongoing benefits through reduced maintenance, improved comfort and stronger long-term property value.

Expert Guidance Every Step Of The Way

Our experienced team helps homeowners navigate the financial aspects of rebuilding with clarity and confidence. From initial feasibility discussions through to final selections, we provide practical advice and realistic guidance to help you achieve the best possible outcome for your investment.

BUDGET & FINANCIAL GUIDANCE

A knock down rebuild is a significant financial commitment, and understanding your options early can help make the process more manageable and rewarding.

At Abode Constructions, we work closely with homeowners during the planning stage to help them better understand project costs, budget considerations and the financial factors that may influence their rebuilding journey.

Whether you're considering construction finance, leveraging existing home equity or exploring available government incentives and energy-efficiency rebates, our team can help guide you through the early stages and connect you with trusted industry professionals where required.

Financial Considerations May Include:

- Construction and home-building finance options
- Using existing property equity
- Government grants and eligible incentives
- Energy-efficiency rebates and sustainability upgrades
- Project budgeting and contingency planning
- Long-term maintenance and operating costs
- Value-focused design and material selections

ENERGY EFFICIENCY & SUSTAINABLE LIVING

Modern Canberra homes should feel comfortable, efficient and environmentally responsible.

We incorporate thoughtful design principles and modern materials that help improve year-round comfort while reducing long-term energy consumption.

By considering orientation, insulation, glazing and natural airflow early in the design process, we create homes that feel brighter, warmer and more comfortable to live in.

Sustainable living isn't simply about efficiency — it's about creating healthier, more comfortable spaces for everyday life.

WHAT DO OUR CLIENTS SAY?

"Scott rebuilt our house at the south coast and we absolutely love the result! Abode were professional, responsive and managed the project in a timely manner. Scott is very particular about making sure everything is perfect, and when some of the joinery didn't fit perfectly he insisted that the joiners remake the piece to ensure it looked and fit perfectly. He has an eye for detail and made sure that every little thing was done exactly the way we wanted. It is difficult to find people in the building industry that are reliable and honest, so it was an absolute pleasure working with Scott and Abode."

Karilee Juniors

"We researched a lot, met many, spoke to a few of his existing clients and then selected Abode Constructions. And we truly relish our decision. Scott is so understanding, proper planner, well informed, quite professional, very flexible, properly managed, well documented, equally competitive and a polite builder. He literally went above and beyond our expectations. Quality of work is beyond appreciation.

Highly recommended and we definitely will again choose him for our next project."

Shashi Kant

"We engaged Scott Simpson to knock-down and rebuild our new home in early 2021 and couldn't be happier with our experience. We were so impressed with the quality of workmanship that we saw in his display home.

Using our own plans, Scott built a beautiful split-level home for us. He has a great eye for detail and high standards which meant he selected good quality suppliers and experienced tradespeople and managed them appropriately throughout the project.

He kept us informed and worked collaboratively with us to resolve issues.

We would recommend Scott without hesitation to anyone looking to build a new home."

Vesna Morosin

"Scott has managed our knock-down & rebuild house in Mawson - ACT. Initially he was referred to us through one of my friends and we are totally happy with the project. We especially liked his transparency, responsiveness and quality of work. Without hesitation I can recommend him to any one who is looking into building a house in the Canberra region."

Rao Adiraju

"The abode team has now helped my family with 4 or 5 different projects. These range from Commercial fit outs to new builds to a complete Full rebuild of a house which had quite a few issues. At all times the Abode team kept us informed and took all the stress and worry away from us. I would never think about using anyone else."

Robert Bindon-Howell

"One of the best builders to work with - always on time, responds promptly, and incredibly friendly. I highly recommend them to anyone planning a new home build or renovation. Don't miss the chance to work with such a reliable team."

Tenzin Norbu

"*The homes we build speak for themselves, but our clients tell the story best.*

PROJECT SHOWCASE

“

Every project is a reflection of our passion for quality craftsmanship, thoughtful design and exceptional living.

Awards & Industry Recognition

When undertaking a knock down rebuild, choosing a builder with proven expertise and industry recognition provides confidence throughout the entire process. Our commitment to quality construction, sustainable building practices and professional standards is reflected through our industry awards and memberships.

- **2013 Master Builders**
- **HIA GreenSmart Professional**
- **Master Builders ACT Member**

These credentials demonstrate our dedication to delivering exceptional knock down rebuild projects across Canberra, combining innovative design, quality workmanship and trusted industry expertise to create homes built for modern living.

FAQ

- **Is a knock down rebuild better than renovating?**

For many homeowners, yes. Rebuilding often provides greater design flexibility, budget certainty and long-term value compared to major renovations.

- **How long does the process usually take?**

Timeframes vary depending on approvals, design complexity and construction scope. We provide realistic timelines specific to your project.

- **Can I customise the design completely?**

Absolutely. Every home is tailored to your lifestyle, block conditions and personal preferences.

- **Do you manage approvals and permits?**

Yes. We handle council approvals, knock down permits and relevant documentation throughout the process.

- **Will I need temporary accommodation?**

Yes. Once demolition begins, alternative accommodation is typically required until construction is complete.

- **Can you work with difficult or sloping blocks?**

Yes. We assess each block carefully and provide guidance on the most suitable approach.

BEGIN YOUR REBUILD JOURNEY

Ready To Create A Home
That Truly Fits Your Life?

*Build a home designed for the future, right
where your life already feels at home.*

At Abode Constructions, we make knock down rebuilds feel considered, manageable and genuinely rewarding from start to finish.

Whether you're still exploring ideas or ready to begin planning your project, our team is here to guide you every step of the way.

Transform your current home into a space designed around the way you truly want to live — without leaving the location you already love.
